UPS Sales & Service

The value of uninterrupted power supply solutions

Uninterruptible Power Supply (UPS) systems provide far more than temporary backup. They protect sensitive equipment, reduce downtime, and give businesses a reliable buffer against power instability.

Power continuity

UPS systems keep equipment running during outages, allowing safe shutdowns or continuous operation until mains power or generators restore supply.

Equipment protection

By regulating voltage and filtering power, UPS units reduce the risk of damage to computers, servers, medical equipment and other sensitive systems

Operational reliability

With regular maintenance, UPS solutions minimise disruptions, helping businesses avoid costly interruptions and maintain productivity.

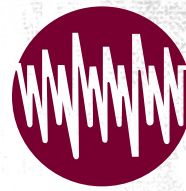

At PME you can be assured there are no gimmicks! We offer reliable service, quality products and knowledgeable, well trained staff, to help you take the guess work out of choosing the right solution for you. So call us today and get the best service and price in Port Moresby.

UPS Sales & Service

Reliable power solutions for every sector

UPS systems play an important role across many sectors in Papua New Guinea, providing steady power during outages and protecting equipment from damage. PME supplies, installs and services UPS systems that help businesses and organisations continue operating without disruption.

Commercial buildings & data centres

UPS systems back up servers, IT equipment and cooling systems, preventing data loss and downtime.

Banks & financial institutions

ATMs, transaction platforms and security networks need continuous power. UPS solutions help services stay online and secure.

Telecommunications

UPS systems support communication towers, networks and switching equipment, reducing the risk of service interruptions.

Hospitals & healthcare facilities

Medical equipment, operating theatres and emergency departments rely on uninterrupted power. UPS units keep systems running when the grid goes down.

Government agencies

Public services, administration systems and emergency response centres remain operational with reliable backup power.

Mining & industrial sites

Heavy machinery, control systems and monitoring equipment benefit from UPS support, avoiding downtime in demanding environments.

Committed to safety and sustainability

At PME, we place equal importance on protecting people and caring for the environment. Our work supports energy efficiency, community development and sustainable growth across Papua New Guinea. We see environmental responsibility not as an obligation, but as an essential part of the way we operate.

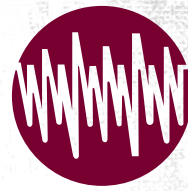

At PME you can be assured there are no gimmicks! We offer reliable service, quality products and knowledgeable, well trained staff, to help you take the guess work out of choosing the right solution for you. So call us today and get the best service and price in Port Moresby.

UPS Sales & Service

Why choose PME for UPS sales & service?

Tailored solutions

We offer UPS systems that are custom-selected to meet your business's power requirements, from small office setups to large-scale commercial and industrial facilities.

Expert installation

Our qualified team handles everything from sizing and supply to professional installation, ensuring that your system integrates seamlessly with your existing electrical infrastructure.

Certified technicians

Our technicians are trained and certified by leading OEMs in the UPS industry. This ensures that every installation, service, and repair is carried out to the highest standard—backed by technical expertise and manufacturer-specific best practices.

Preventative maintenance & servicing

Regular servicing is key to extending the life of your UPS and avoiding unexpected failures. PME provides scheduled maintenance programs as well as emergency repair services.

Load resting & battery replacement

We conduct onsite load testing and battery assessments to ensure your system is performing at optimal capacity. When it's time to replace batteries, we'll provide fast and reliable service with minimal disruption to your operations.

24/7 support

Power outages can happen at any time. Our technicians are available around the clock to respond to breakdowns and ensure your critical systems remain protected.

At PME you can be assured there are no gimmicks! We offer reliable service, quality products and knowledgeable, well trained staff, to help you take the guess work out of choosing the right solution for you. So call us today and get the best service and price in Port Moresby.
